

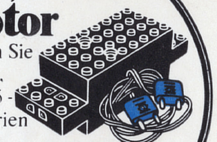
LEGO®

A partir de 6 ans, les enfants, grâce au moteur de 4,5 V, aiment donner du mouvement à leurs constructions LEGO®.
Les illustrations de la boîte montrent quelques exemples de constructions avec moteur - naturellement on peut en réaliser beaucoup d'autres.

Im Alter von 6 Jahren ist der LEGO® Motor eine prima Ergänzung für die LEGO Sammlung.
Die Packung zeigt einige Modelle mit eingebautem Motor, aber natürlich sind viele andere Modelle möglich.

4,5-Volt Motor
Vergessen Sie bitte nicht. 3 Stück 1.5 - Volt Batterien zu kaufen.



Moteur 4,5V
N'oublie pas d'acheter 3 piles 1,5 V.
